

Lesson 5.3. Storage Requirements

Objectives.

- 5.3.1. Assess auditable source and supporting documentation.

Topic: File Storage

Once a document packet has passed Quality Control (QC) and stamped, it becomes an official record. Maintaining these records is the formal process of filing, storing, and eventually disposing of them according to Air Force standards. Your goal is to ensure that any document can be found quickly and easily for research or an audit, sometimes years after the transaction takes place.

Digital Storage

While "maintaining" used to mean storing papers in a filing cabinet, the modern process is fully digital. The modern auditable source is a designated online shared folder that is only accessible to medical materiel personnel. The physical paper trail will turn into a single, organized, and accessible PDF file. QC personnel follow the steps below to convert QC'd documents into a permanent digital record:

1. Prepare the Completed QC'd Packet
 - a. The top of the packet will the SDCR with all your notes on it
 - b. Behind the SDCR are all the source documents organized numerically in document number order
2. Scan the Packet
 - a. Utilize a multi-page scanner to scan the packet starting from the SDCR down to the last source document
3. Naming the File
 - a. Save the new PDF with a standardized naming convention that is easy to search and understand.
 - i. *Note: Naming conventions will be determined by local unit leadership*
 - ii. *Example: YYYY-MM-DD_SDCR_Docs.pdf*
4. Upload to the Auditable Source
 - a. Every Medical Materiel Flight will have their own designated shared drive so documents can be shared for all Loggies to view. There will be a designated "QC" folder where the completed Quality Control packet will be placed.
 - i. *Note: The file path will be determined by local unit leadership*
 - ii. *An example can be found below:*

This PC > Shared Drive (G:) > MDSS > SGSM > PRIVATE > Customer Service > 6.1.1 QC > Source Document Control Reports > 2026 > 1. Jan

Name	Date modified	Type	Size
5 Jan (005)0001	1/6/2026 4:31 PM	Adobe Acrobat D...	17,204 KB
6 Jan (006)0001	1/8/2026 4:24 PM	Adobe Acrobat D...	2,532 KB
7 Jan (007)0001	1/8/2026 4:28 PM	Adobe Acrobat D...	10,997 KB
8 Jan (008)0001	1/9/2026 10:23 AM	Adobe Acrobat D...	8,975 KB
9 Jan (009)0001	1/13/2026 1:48 PM	Adobe Acrobat D...	5,472 KB
12 Jan (012)0001	1/13/2026 1:49 PM	Adobe Acrobat D...	4,448 KB
13 Jan (013)0001	1/16/2026 10:07 AM	Adobe Acrobat D...	28,420 KB
14 Jan (014)0001	1/16/2026 1:10 PM	Adobe Acrobat D...	3,149 KB
15 Jan (015)0001	1/16/2026 3:11 PM	Adobe Acrobat D...	1,129 KB

5. Disposition of Paper Documents

- Once you have confirmed the PDF is uploaded correctly and is clear and legible, the original paper documents can be disposed of in accordance with INFOSEC procedures, which requires a CUI-graded shredder
- This completes the lifecycle of physical documents, and the PDF is now an official record for audit purposes

Lesson Review

Quick Check.

	Question	Answer	Page #
1.	What is the goal of filing official records?		

Lesson 5.3. Storage Requirements Close

Objectives.

- 5.3.1. Assess auditable source and supporting documentation.

Unit 5. Document and Quality Control (QC) Close

This unit contained the following lessons:

- 5.1. Document Identification
- 5.2. Quality Control
- 5.3. Storage Requirements
